EXPERIENCE

Software Development Engineer I — Senior Front-End Developer

July 2022 – Present

Key Technologies: [Angular](#), [TypeScript](#), [Java](#), [Springboot](#), [GoLang](#), [Oracle SQL](#), [Microsoft Azure](#), [REST APIs](#), [Git](#)

Reliance Jio Platforms Limited, Navi Mumbai, India

- Led UI development for CloudXP's Billing Module using AngularTS, enhancing billing, reporting, and data visualisation workflows while reducing data retrieval time by 40%.
- Refactored over 15,000 lines of legacy code into modular Angular components (87% reduction), improving delivery speed by 18% and overall team efficiency by 21%.
- Engineered GoLang-based backend services to replace Oracle SQL logic, enabling secure Azure file handling, concurrent data workflows, and large-scale data transformations with over 70% performance gains.
- Reduced 9GB data processing time from 4 hours to under 2 hours by implementing parallel execution routines and optimising critical backend processes.
- Designed scalable REST APIs for microservice communication, improving system integration and reducing downtime by 5%.

Head of Web Development

April 2020 – February 2022

Key Technologies: [WordPress](#), [PHP](#), [HTML5](#), [CSS3](#), [JavaScript](#), [SEO](#), [Git](#), [Figma](#)

Storiyaan: Stories That Inspire, Mumbai, India

- Developed and optimised the official website using WordPress, PHP, and custom JavaScript, improving load performance by 75%.
- Led and mentored a team of 13 developers, consistently recognised for excellence with six Employee of the Month and four Best Web Developer awards.
- Collaborated with 20+ clients and public figures to deliver high-quality web solutions, strengthening leadership, coordination, and communication skills.

SKILLS

Programming Languages	JavaScript, TypeScript, Node.js, C#, Java, Go Lang, Python
Web Development	HTML5, CSS3, SASS, Angular, React, Next.JS, P5, Bootstrap, Tailwind
Database Management	SQL
Tools	Git, Azure DevOps, Spring Boot Tool Suite, WordPress, Figma, MS Office, Oracle

PROJECTS

Object Detecting Intelli System (O.D.I.S): Built an AI tool identifying visible objects in real-time with 90% accuracy. **Tech Stack:** [ml5.min.js](#), [HTML](#), [CSS](#), [JavaScript](#).

Emotion Classifier using NLP: Developed a sentiment analysis system to classify text sentiments and detect emotions, achieving 62% accuracy. **Tech stack:** [Python](#), [NLTK](#), [Anaconda](#), [Streamlit](#), [TensorFlow](#), [scikit-learn](#).

Ping Pong Ball Game: Created an interactive ping pong game using the p5 library, focusing on animation and canvas manipulation. **Tech stack:** [JavaScript](#), [p5.js](#).

React Counter App: Developed a minimalist counter application in React, emphasising state management, component reusability, and clean UI design. **Tech stack:** [React](#), [TypeScript](#), [HTML5](#), [Tailwind CSS](#).

EDUCATION

Bachelor of Engineering in Computer Engineering, Vidyalankar Institute of Technology
CGPA: 7.9/10 — University of Mumbai

May 2022
